

You Won't Believe This Table of Contents

Track 8: Take The Quiz: Which Pointless Time-Wasting Amusement are You?

1. How to Keep a Graduate Student Busy TODO
2. New Results in k/n Power-Hours TODO
3. Linear Logic Free TODO
4. It Still Seems That Black Has Hope in These Extremely Unfair Variants of Chess TODO

Track 88: Epic Local News Stories You'll Be Sad You Missed

1. PARTIAL TRANSCRIPT OF DEAN'S SPEECH TO THE FACULTY OF THE MELLON COLLEGE OF SCIENCES TODO
2. Analysis of the Effects of Substantial Lane Closure During Afternoon Peak Along a Heavily-Traveled Urban Arterial Choke-Point TODO
3. Yet Another Application of Our Pet Technique TODO
4. Please Don't Let Open House Destroy the Universe TODO

Track 888: Four Unbelievable New Theoretical Perspectives

1. Heterotopy Type Theory: A Defense of the Traditional Foundations of Mathematics TODO
2. The Dumping Lemma - Assessing Regularity TODO
3. Statistical Watch Optimization TODO
4. A Simple Category-Theoretic Understanding of Category-Theoretic Diagrams TODO

Track 8,888: The Three Most Important Ways to Stay Safe This Research Season

1. Cryptographically-Sound Jokes TODO
2. DollarCoin: A Cryptocurrency with Proof-of-Dollar TODO
3. Towards a Completely Autonomous Vehicle TODO

Track 88,888: Improve Your Own Research With These Five Weird Tricks

1. Belief-Sustaining Inference TODO
2. Solutions to Ley Line Access in Occult Computing TODO
3. Measuring Your \mathbb{P} -ness:
Determining How Like a Probability Distribution a Given Mathematical Object Is TODO
4. a clarification of terminology TODO
5. What, If Anything, is Epsilon? TODO

Track 888,888: These New Ways to Program Will Blow Your Mind

1. IRS-1040-Based Computing: The Untapped Computational Power of Bureaucracy TODO
2. Towards Fooling and Foiling the NSA:
Surveying the State of Steganographic Programming Languages TODO
3. Pikachu, Domosaur, and other Monolexical Languages TODO
4. Unit-Test-Based Programming TODO
